Dear School Administration,

I am writing to request your assistance in providing a specialized high-protein diet and frequent meals for....., who has been diagnosed with Moderate Acute Malnutrition (MAM).

As you may know, MAM is a condition that requires immediate attention to prevent further complications and ensure optimal growth and development. I believe that together, we can provide the best possible care for this student by ensuring that they receive a balanced and nutritious diet that meets their specific nutritional needs.

I kindly request that you provide a high-protein diet plan for this student during his/her time at school. This diet plan should include foods that are high in protein, such as lean meats, eggs, beans, and dairy products, as protein is essential for growth and repair of tissues. Additionally, I request that this student be provided with frequent meals, at intervals of around 2 hours, to ensure that they receive adequate nutrition throughout the day.

I appreciate your cooperation in this matter and look forward to working with you to provide the best possible care for the student. Please let me know if you require any further information or assistance.

Thank you for your attention to this matter.

Sincerely,

.....

Nutritionist, Oljabet Hospital.
